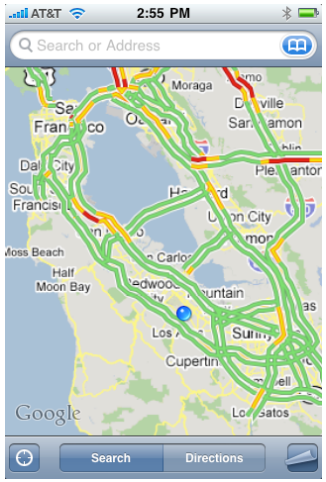
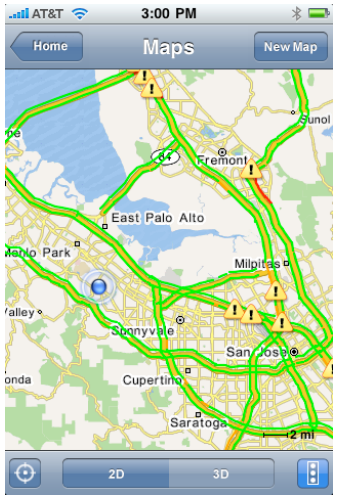
1970s 1980s 1990s 2000s

CB radios

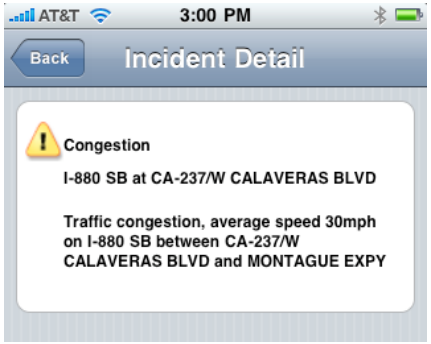
Am I about to drive near a place where I can _____ ?

No one has created a 65mph driver interface for smartphones





vs



Aha Mobile, Inc.

- Connect drivers to relevant information from other drivers and the Web with an interface optimized for 65 mph.
- Status:
  - Backend platform created to enable multiple device types
  - Initial application developed for the iPhone
    - Submitted last week to Apple
    - Will be free download from app store
- Corporate stuff:
  - Founded 2008 in Palo Alto
  - $3 million in Series A funding from Venrock
  - More info at www.ahamobile.com
